Examiner: N/A

(National Stage in U.S.)

For:

**DEVICE AND METHOD FOR DETERMINING IMAGE MODIFICATION VALUES**

Honorable Commissioner of  
Patents and Trademarks  
Washington, D.C. 20231

**INFORMATION DISCLOSURE STATEMENT**

Sir:

In order to comply with 37 CFR 1.197 and 1.98, attached hereto is a copy of Form PTO-1449 and copies of the documents listed thereon. These documents contain information which the Examiner should consider during examination of the present application.

RECEIVED  
DEC 29 2000  
TC 2600 MAILROOM

In accordance with MPEP Sections 609 and 707.05(b), it is requested that each document cited (including any cited in applicant's specification which is not repeated on the attached Form PTO-1449) be given thorough consideration and that it be cited of record in the prosecution history of the present application by initialing Form PTO-1449 next to the document. Such initialing is requested even if the Examiner does not consider a cited document to be sufficiently pertinent to use in a rejection, or otherwise does not consider it to be prior art for any reason, or even if the Examiner does not believe that the guidelines for citation have been fully complied with. This is requested so that each document becomes listed on the face of the patent issuing on the present application.

The references listed in the accompanying PTO Form 1449 were identified in an International Search Report in the PCT application to which the present U.S. National Phase patent application claims priority. A copy of the search report is provided. Each reference listed on the PTO Form 1449 is in a foreign language, however, the requirements pursuant to 37 CFR 1.96 for a concise explanation of the relevancy of each foreign reference have been satisfied. In particular, the search report satisfies the concise explanation requirement in that it provides the degree of relevance of each non-English reference.

In addition, the references not enumerated in the Search Report were additionally cited by the German Patent Office.

The reference (13) was discussed in the specification.

The present Information Disclosure Statement is being submitted in compliance with 37 CFR 1.56, but the citation of such document is not to be construed as an admission that

such document is necessarily relevant or prior art. No representation is intended that the cited documents represent the results of a complete search, and it is anticipated that the Examiner, in the normal course of examination, will make an independent search and will determine the best prior art consistent with 37 CFR 1.104(a) and 1.106(b) and, in the course of each search, will review for relevance every document cited on the attached form even if not initialed.

Early and favorable consideration is earnestly solicited.

Respectfully submitted,

Christa Hildebrand
